October thoughts...

Goodness, we are coming into the season of “*mists and mellow fruitfulness*”. Our spring and summer seem to have merged seamlessly and autumn is now upon us as I sit in my garden - still in the warm sunshine - to write this.

As we enter October, we remember the feast of St Francis of Assisi on October 4th a special ‘Feast of the Povoello’. This year is even more special, being the 800th anniversary of Francis’s death.

My late husband Conal was a Franciscan priest based at the International Study Centre in Canterbury, Kent. As his journey of faith developed and changed (with Conal becoming in time the Team Rector in the Hempnall Group) his love of Francis never did. My own love of all things Franciscan emanated from my meeting with the Franciscan community in the nineteen seventies.

We so often see pictures of Francis with birds and animals – his love of creation was so much a part of him and of his strong faith. But, as a man, he did indeed suffer from severe depression which tested him to the limits, and he would retreat to the mountains and hills to be alone and ‘fight his demons’.

He cared for those with leprosy whom he met on the road to Assisi, outside the city walls, e.g. meeting a man with leprosy on the road to the city, Francis kissed him and washed his open sores before giving the man his own cloak. He was not afraid of touching and cleansing the open ulcers and lesions of this terrible disease. These poor people were outcasts left to beg, to live and die by the roadside, nobody really caring about them at all.

Leprosy is still a part of our world’s suffering. Incredible work of love and care continues to be undertaken by ‘The Leprosy Mission’ (<<https://www.leprosymission.org.uk/>>).

So, so many people need help just to survive.

Perhaps this October we could especially think and pray for those and so many who in our time sit beside the roadside and beg and long for someone like Francis to at least offer a ‘cloak’ for comfort.
